EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sandra Beauchesne on October 4, 2007.

The application has been amended as follows: Claim 3 depends from claim 1. Added "wherein said extracting a sign comprises applying a signum function defined as $\text{sgn}(f) = 1$ when $f \geq 0$ and $\text{sgn}(f) = -1$ when $f < 0$." to the end of claim 1. Claim 2 is canceled.

2. The following is an examiner's statement of reasons for allowance: Although the concept of a signum function is known in the art the specification and claims clearly define the signum function used here in a novel way. As described in paragraphs 38-41 on page 7 of the specification the conventional signum function defines $\text{Sgn}(f) = 0$ if $f = 0$. However, as described in paragraph 42 on page 7 the signum function in this case has been redefined such that $\text{Sgn}(f) = 1$ if $f = 0$.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
